

would you kindly introduce
yourself?

Is there any particular reason why you changed the career to venture capitalist? Could you briefly introduce your company?
Roughly 3-5min

What are routines as
venture capitalist?

Creating fund and finding potential startups are your two main tasks. Which one is easier, funnier, making you more excited?

Based on two tasks, tell us
about different activities?

Main question today is how
do you recognize if this
startup is successful.

What is the ratio of
successful expectation? Is
there any case you missed
out and regret it?

Any suggestions for future
startups and future Vcs?

"Today, we have the pleasure of welcoming a venture capital investor who is actively engaged in early-stage startup investments."

Dr. Jinsoo Kim is currently serving as a Managing Director at KT Investment. He has led investments in over 50 startups, with 6 of them successfully going public (IPO) and another 6 exiting through M&A."

"His main areas of focus are AI and robotics, with a primary investment focus on Series A and B stages. He is currently managing a portfolio of 40 startups and is actively exploring new and emerging sectors."

""The following conversation will be held in Korean, with English subtitles available for international viewers.".
